Individual service for all UK patients of the The Gutenberg Centre Reproduction Unit, Spain

- Our support for you, in partnership with The Gutenberg Centre Reproduction Unit
- We will deliver medication directly to your chosen address.
- Specialist pharmacists
- Ambient and cold chain deliveries to maintain the integrity of your medication.
- Direct access to our pharmacist once medication is dispensed.
- Specialists in supplying medications for patients who have chosen IVF treatment abroad.
- Competitive prices for all medications.
- We supply expert nurses to visit you in your own home and help you through the first time you need to self inject.
- If you are prescribed an intra lipid infusion as part of your immunological support we can send one of our specialist nurses to your home to administer this safely for you.
- We can arrange blood tests and scans in the UK, pre or post clinic visit.

Medications

- Just upload your prescription onto our website - we take it from there and keep you informed at every stage.
- NHS list prices charged
- Fair tiered service fee

Scans & blood tests

- We can arrange Pre or post clinic blood tests and scans.
- We send finger prick blood test kits directly to patient.
- Arrange a nurse to take bloods in patients home.
- Arrange scans according to clinic requirement.
- We can send results directly to clinic and to the patient.
- Just ask your clinic to request the tests for you - we take it from there and keep you informed at every stage.

Nurse at Home

- Intralipid Infusion - £350, includes delivery of the medication as per protocol.
- IM injection visit - £220, intramuscular injection only (does not include a teaching session on any IVF medications).
- Needle Nerves - £275, a 1 hour visit to assist with your injection technique on your first night injection.
- IVF Specialist Nurse visit - £490, a 2 hour medications teach.
- IVF Specialist Nurse remote - £200, a 1 hour Skype call to discuss your medication.
